OUR STORY

WHO WE ARE

FC Dragons Dallas is a nonprofit youth soccer organization founded in 2017 with a mission to provide affordable club-level soccer opportunities to children in our community.

Many talented young athletes never receive the opportunity to compete at a higher level because of financial barriers.

FC Dragons Dallas exists to remove those barriers by providing quality training, competitive opportunities, mentorship, and character development at a cost families can afford.

What began as a small recreational program serving family members has grown into a community-driven organization dedicated to helping players ages 6-15 develop both on and off the field.

Our vision is simple: every child deserves the opportunity to pursue their soccer dreams regardless of financial circumstances.
